Dear Dominic:

Thank you for submitting your work to *The Big Reveal*, part of CENTER's Summer Slides program. We would like to include your images in the projection on Friday and Saturday, June 7 & 8 in the Santa Fe Railyard. We are very excited to share your work with Santa Fe during the [Currents New Media Festival](#), one of the most dynamic events of the year.

The projection will be presented at the entrance of [El Museo de Cultural de Santa Fe](#) (location of the Currents New Media Festival) from 8 – 10pm. The projection screen is approximately 9' x 16'. The curated photographic slideshow will include several images from each artist, as well as a short excerpt from the artist statement, and a statement from the curator. The Slideshow will play on a loop, so that passerby traffic can enter at any point during the program.

We will be testing the projection in the next few days, and may reach out to request additional images or different image specs. We will also be promoting *The Big Reveal* on social media, so please let us know if you object to us using your images.

Please respond to this email and confirm your participation.

Many Thanks,

Angie Rizzo

Hello Photographers!

First of all, thank you for your participation in *The Big Reveal* - your images made the event a success and the weekend memorable. We are in the process of uploading our event documentation to Facebook, so check back if you weren't able to attend and want to see pictures.

As the weekend was such a success, we have decided to extend it an additional weekend. The presentation will be screening from **8:30pm - 10pm on Friday, June 14 and Saturday, June 15** at El Museo Cultural de Santa Fe. Please join us!

In addition to the extended event dates, we have created an [online gallery](#) with the selected images and artist statements from each artist. The page will stay up for at least one year and most likely longer.

Please let me know if you have any questions and thank you again for making *The Big Reveal* possible!

Best,  
Angie

**The Big Reveal: Telling Truth in an Age of Fiction** explores how photographers today are revealing truths and addressing the roles of fact and fiction in contemporary society.

Photography today can feel invisible. It saturates the news, social media, advertising, and vernacular uses in everyday life. Yet, photography's ubiquitousness gives it a quiet power in numbers. It aids in the telling of important truths and lies; reinforcing rhetoric and debunking myths. Photography has the power to tell a story from an individual perspective and to be understood by the masses.

**CENTER** is teaming up with the **CURRENTS New Media Festival's** opening and second weekends and will be hosting a juried projection outside **El Museo Cultural** next to the festival's main entrance on the railroad track side.

## OPENING WEEKEND

*"The "Big Reveal" photographers created fantastical worlds in their images as they sought out fictional narrative as the antidote to a harsh reality. Many projects faced social issues head on and documented the problems of humanity or brought light to the un-seen. For some, revealing truths meant looking inwards and expressing a personal truth through self-portraiture or collaborations with family. These projects emphasize the unique relationship between photography and the idea of 'truth.'"*
